

## Karnal Bunt Regulated Articles

7 CFR § 301.89-2(a)  
Last update: April 11, 2017

1. Conveyances, including trucks, railroad cars, and other containers used to move host crops produced in a regulated area that have tested positive for Karnal bunt through the presence of bunted kernels;
2. Grain elevators/equipment/structures used for storing and handling host crops produced in a regulated area that have tested positive for Karnal bunt through the presence of bunted kernels;
3. Seed conditioning equipment and storage/handling equipment/structures that have been used in the production of wheat, durum wheat, and triticale found to contain the spores of *Tilletia indica*;
4. Plants or plant parts (including grain, seed, and straw) and hay cut after reaching the dough stage of all varieties of wheat (*Triticum aestivum*), durum wheat (*Triticum durum*), and triticale (xTriticosecale [*Secale* × *Triticum*]) that are produced in a regulated area, except for straw/stalks/seed heads for decorative purposes that have been processed or manufactured prior to movement and are intended for use indoors; plants or plant parts harvested for silage are exempt from regulation.
5. *Tilletia indica* (Mitra) Mundkur;
6. Mechanized harvesting equipment that has been used in the production of wheat, durum wheat, or triticale that has tested positive for Karnal bunt through the presence of bunted kernels; and
7. Any other article, product, or means of conveyance not already listed may be designated a regulated article on an immediate basis if an inspector determines that it presents a risk of spreading Karnal bunt, and notifies the person in possession of the article, product, or means of conveyance that it is now subject to the restrictions of this subpart.
